

WL-CLR & WL-CLR-CL

Land Clearing Rake

WL-CLR

WL-CLR-CL

The Craig Land Clearing Rake transforms your loader into a versatile land clearing tool. Perfect for working with logging slash for biomass fuel collection and site preparation for re-planting. The boxed frame design provides maximum strength and high visibility while long and curved rake teeth offer superior load capacity.

On "CL" models two rugged hydraulic clamps allow for large capacities of odd-shaped and difficult materials to be handled efficiently and accurately.

- Optional replaceable teeth available on request
- Available in Craig Quik-Key or OEM coupler & Pin-On configurations
- Solid steel serial number for easy identification and support
- Critical wear areas utilize Brinell 400 wear plate
- "CL" models require optional third valve on machine
