

WL-QKM

Quick Key Coupler

The Craig Quick-Key coupler system allows for maximum worksite, and seasonal, versatility. Change attachments in just seconds. Purchase our female blank to add to existing attachments or other heavy jobsite items that need to be moved frequently.

- Single point self aligning pickup centers the coupler easily, even on rough terrain
- Large contact area spreads the load over a wide surface for strength
- Works with all Craig Quick-Key attachments built for machines within the same size category.
