Side-Dump Bucket

Working in tight quarters? The Craig Side-Dump Bucket is for you. Designed to work safely with your specific machine, the side-dump bucket allows conventional loading and lateral unloading of material. Simply pull-up beside the truck or dump-box and hydraulics lift the bucket sideways on a horizontal-pin to dump to the side of the loader. Eliminates excess loader travel and lost time.

- Bolt-on, reversible, cutting edges on all three contact surfaces
- Can be ordered in either Craig Quick-Key or OEM coupler & Pin-On configurations
- Available in left or right side dump
