

EX-SMT
STICK MOUNT THUMB

The Craig Stick Mount Thumb is the perfect solution for outfitting machines with a durable and easily installed thumb. When not in use the thumb tucks up close to the stick for unparalleled visibility and convenience.

- Universal fit (May not mesh with all bucket teeth, contact Craig for details)
- Features up to 120 degrees of rotation
- Stick mount design allows the installer to customize the thumb hang down and rotation by adjusting pad location on the excavator stick
- Middle tines are shortened to help prevent interference with excavator boom
- Rugged and durable design for years of trouble free operation
- Includes manual thumb lock to store thumb tight to the stick
- Additional valve required on machine to operate thumb
