## DUAL GRAB BUCKET

This Craig Dual Grab Bucket is the perfect tool for land clearing and demolition job sites. It features dual thumb cylinders on the bucket for greater gripping force that follows the bucket throughout the entire curl cycle. The 2 thumbs are mounted directly to the bucket giving you superior machine versatility and allows you to drop the entire thumb and bucket assembly as one piece.

- Available in Wedge Lock, Pin-on, S Series, or Manual Bar Lock lugging
- Various ground engaging tools available to meet your specifications
- Pin on lugging is raised to allow for bucket to be attached directly and easily to the stick or can be used with pin grabber
- Cylinder covers to protect shafts
- Tines and sidecutters serrated for additional grip
- Independent design of tines prevents thumbs and excavator stick hitting each other
- Independent tines can grip uneven loads
- A fast, more productive, and easier operation in a bucket and thumb assembly
