# CRAIG SKELETON ROCK BUCKET

The Craig Skeleton Rock Bucket is designed for separating rocks and other large materials from loose soil. The SR bucket for excavators is made of durable steel to last tough applications. Slots sift loose material to separate rocks.

- Bucket ribs are made of high abrasion steel for added strength and durability.
- Designed to sift dirt, gravel, and debris
- Bottom of bucket features AR 400 wear plate runners and choice of GET
- A range of custom opening/spacing of the bucket ribs are available to suit debris sorting
