

MG-WELL

SERIES II WINDROW ELIMINATOR

A rugged solution for reclaiming the road shoulder. The Series II Windrow Eliminator features a robust design with a parallel lift system. Eliminates the need for an extra pass, saving time and energy for your operation.

- No need to grade roads twice because of unwanted windrows
- Hydraulic lift provides 12" to 24" of lift (depending on machine), keeping the Windrow Eliminator out of the way when not in use
- Replaceable steel cutting edge
- Four different angle adjustments – up to 45°
- Available with manual or hydraulic adjustable caster wheels
- Can be side shifted up to 36" left or right
- Blade depth adjustment up to 10"
- Independent boxed swing frame
- Curved blade eliminates windrows while offering a secondary grading pass
