MULCH BUCKET

FEATURES AND BENEFITS

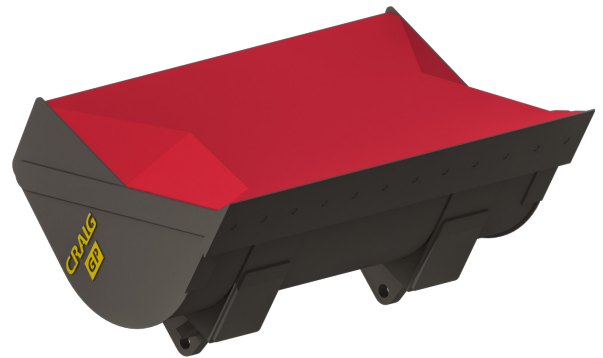

Available in 56" and 72" widths, the Craig Mulch Bucket provides an accurate struck capacity of 1.00 cubic yard. (1.19 cubic yards heaped). The deep narrow design allows for accurate loading of quarter ton or half ton pickups in the commercial sale of mulch.

EASE OF USE

Engineered for accurate measurement and ease of use, the Craig Mulch Bucket is designed to take the guess work out of loading mulch in a commercial sale application.

CONSISTENT MONEY SAVER

Consistent and accurate loading is key when it comes to loading mulch. Too much and you're losing money, too little and you end up with an unsatisfied customer. Craig Mulch Buckets come standard to provide an accurate 1.00 cubic yard struck capacity, 1.19 cubic yards when heaped.

Standard Mulch Bucket features a 1.00 cubic yard struck capacity.

CUSTOM ENGINEERING AVAILABLE

Not all operations run the same, Craig Manufacturing offers custom engineering to meet the needs of your specific operation. Call the Craig Customer Support Center today to learn more about our custom engineering capabilities.

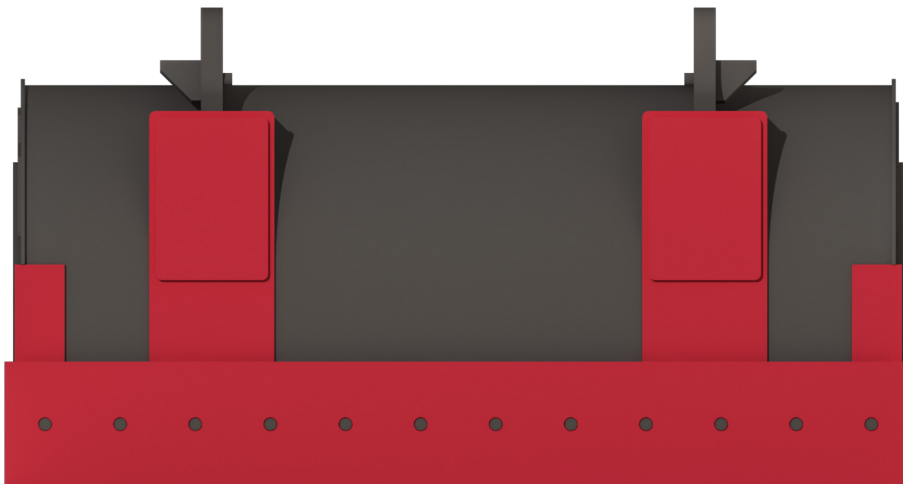

WEAR PLATE

The bottom of the bucket comes with AR 400 wear runners and weld-on side cutters to protect the bucket from wear and increase the overall life of the bucket. Weld-on heel plates come standard, optional bolt-on heel plates available.

REPLACEABLE BOLT-ON EDGE

Each bucket drilled to work with the OEM brand of cutting edges requested comes complete with cutting edges installed.

Bottom of bucket features AR 400 wear plate runners and bolt-on replaceable edges.

HOOK-UP CONFIGURATIONS

The Craig Mulch Bucket is available in a variety of hook-up configurations including Craig Quik Key, OEM coupler, and OEM pin-on. This allows the bucket to easily fit into your existing fleet of attachments and machines without the need of a new coupler.

A variety of OEM hook-up configurations are available to work with your machine.
