

## WL-REV-EX

# EXTENDABLE REVERSIBLE PLOW

The Craig Extendable Reversible Plow is ideal for contractors who plow large parking lots and yards. The hydraulically adjustable width allows it to be an efficient snow removal tool with a wide cleared path that is safe for travel between jobs.

- Universal vertical down pressure float hook-up frame - can be locked out for scraping applications
- Available in Craig Quik key, OEM coupler, and pin-on configurations
- Up to 30° of left and right angling capability - even when extended
- Trip edge or trip moldboard available
- Extensions slide on rugged tube frame
- Optional third valve required on machine
- Optional rubber deflector and high visibility kit available
- Comes standard as 10' wide with capability to extend to 16'
- Comes with double selector valve on the plow as well as a control switch
