

OUR MISSION

CUSTOMERS

Craig is dedicated to providing the highest quality products and support to allow our customers to unlock the maximum potential productivity of their equipment.

TEAM MEMBERS

We are committed to providing our Team Members with a stable, 5S and safe working environment that encourages personal and team development. Team creativity and innovation are the cornerstones on which our company has been built and only through these achievements will it succeed.

EXCAVATOR CONSTRUCTION ATTACHMENTS

EXM-CWL CONVERTIBLE WEDGE LOCK COUPLER

The Craig Convertible Wedge Lock Coupler features a light weight, low profile design that maintains your machines OEM tip radius while offering a quick coupling system. Available as either a hydraulic or manual coupler, both configurations share the same chassis allowing them to be easily switched to either configuration at any time with a Craig supplied kit.

EXM-CQL CRAIG QUIK LOC GEN .2

Featuring an instant quick locking knuckle, the Craig Quik Loc Gen. 2 – powered by Cascade – is the ultimate in excavator pin grabber safety. A unique wedge style design allows the Craig Quik Loc Gen. 2 to be light weight and low profile – meaning more attachment capacity.

EXF-HA HAMMER ADAPTER

Available for all makes and models of hydraulic hammers and plate compactors. Available with Wedge Lock, OEM pin-on, S-Series, or manual bar lock lugging.

EXM-ISH CRAIG S-STYLE COUPLER

S1, S2, and S3 styles available to pin onto any excavator. The Craig S-Style Coupler features both audible and visual indicators to let the operator know when the coupler is engaged and disengaged. The low profile design allows for no tip radius extension allowing your machine to maintain maximum breakout force with the convenience of a quick coupling system.

EX-CBR CRAIG BRUSH RAKE

The Craig Brush Rake is a medium duty brush rake designed for efficient moving and sorting of brush on the job site. The profile of the rake is optimized for working with brush and other loose material. For stumping applications Craig recommends the Craig Stump Shear or the Craig Land Clearing Rake.

EXB-CBB CRAIG BITE BUCKET

Dig like a standard bucket, move materials securely, grade the finished piece with the straight cutting edge, skim ground cover with the serrated reverse clam edge or securely grab a piece of I-beam to smooth large areas all at once. This bucket is also great for accurately spreading aggregate into trenches by using the bucket as a belly dump.

EXB-CGB CRAIG GRAB BUCKET

An excavator grapple and dig bucket all-in-one, the Craig Grab Bucket is the perfect tool for when you need an alternative to a conventional thumb. Features dual thumb cylinders on the bucket for greater gripping force that follows the bucket throughout the entire curl cycle. NOT AVAILABLE IN THE USA.

EXB-CGB2 GRAB BUCKET SERIES 2

The Craig Grab Bucket S.2 is our newest adaptation of our Grab Bucket. The Helical Actuator can produce up to 54,000 foot-pounds of torque at 3000 PSI. This means a continuous grip throughout the bucket's rotation. And because the thumb is directly mounted on the bucket, you can drop the entire attachment as one piece.

EXB-FB FROST BUCKET

Tear through frozen ground and trench at the same time to cut your digging time in the winter in half with the Craig Frost Bucket. Adco style teeth standard for superior ground penetration.

EXB-HDINT INTEGRATED THUMB TRENCHING BUCKET

Ideal for multi-function excavators, the Craig Integrated Thumb Trenching Bucket comes with the thumb attached to the bucket. This allows the excavator to completely remove the bucket and thumb - reducing weight and saving fuel.

EXB-HD HEAVY DUTY TRENCHING BUCKET

Craig excavator buckets are designed and built to meet your specifications. Superior quenched and tempered Brinell 400 steel is used in all wear areas.

- Available in Wedge Lock, Pin-on, S Series, or Manual Bar Lock lugging
- Comes pre-drilled for side cutters or wear shrouds
- Optional Hard-Facing available
- Various ground engaging tools available to meet your specifications
- Pin-on hook-ups are align bored to OEM tolerances
- Enclosed lift ring standard

EXB-HDQF/SSQF QUIK FILL TRENCHING BUCKET

With its low profile design, curved cheek plates and active attack angle, the Craig Quik Fill bucket is designed to minimize surface friction and maximize cycle time efficiency when loading and unloading the bucket.

EXB-HDXP PIN GRABBER BUCKET

Craig offers all digging buckets with the option of low pin lugging. Used exclusively on machines equipped with pin grabbers. Recessed pins decrease tip radius for added breakout force over conventional full height lugs.

EXB-SS SEVERE SERVICE TRENCHING BUCKET

Craig Severe Service Buckets are specifically designed to meet your toughest applications. Superior Brinell 400 quenched and tempered steel is used in the main-sheet, end-plates, horizontal wear bars and base edge.

EXB-XHD EXTRA HEAVY DUTY TRENCHING BUCKET

Extra Heavy Duty Buckets feature thicker G40 steel throughout their construction – including thicker Brinell 400 wear plate on the runners and side front plate.

EXB-CL CLEAN UP BUCKET

Craig Clean Up Buckets feature a larger capacity than our standard ditching bucket and constructed with higher grade steels for those jobs that require more than a ditching bucket. Available with a straight or serrated cutting edge.

EXB-DC RIGID DITCHING BUCKET

With a wide, shallow, smooth curl design – this bucket is ideal for cleaning ditches, grading, and aggregate work. Equipped with drain holes for working in wet environments, this bucket can be equipped with either a straight or a serrated cutting edge for badly overgrown ditches.

EXB-HADC
HYDRAULIC ANGLING DITCHING BUCKET

The Craig Hydraulic Angling Ditching Bucket has a flat cylinder design to keep the tip radius to a minimum. This design allows for a full 45° of rotation while guarding the cylinders for maximum protection.

EXB-HADCSS
SEVERE SERVICE HYDRAULIC ANGLING DITCHING BUCKET

This heavy-duty version of our Craig Hydraulic Angling Ditching Bucket is the perfect tool for all your ditching, grading, and contouring needs. The Craig Severe Service Hydraulic Angling Ditching bucket features a complete bucket weldment of Brinell 400 steel, Brinell 450 cheek plates, and hardened bushings at all pivot points.

EX-CUT
DIRECT LINK HYDRAULIC THUMB

Our signature thumb – the Craig Direct Link Hydraulic Thumb, features a four tooth inter-meshing design and boxed frame. This thumb provides superior grip and dexterity for day-in and day-out material handling.

EX-PMHUNIV
UNIVERSAL PAD MOUNT HYDRAULIC THUMB

The Craig Universal Pad Mount Thumb is the perfect stocked solution for outfitting machines with a durable, easily installed, fully hydraulic thumb that is field customizable to the specific tip radius of each machine. When not in use the thumb tucks up close to the stick for unparalleled visibility and convenience.

EX-CG
CONTRACTOR GRAPPLE

Ideal for the multi-tool excavator. The Craig Contractor Grapple has been developed to offer the versatility of a grapple to excavator operators running a coupler or a pin grabber. The claws pivot on an independent pin allowing for a full range of motion.

EXB-DCQF
QUIK FILL DITCHING BUCKET

Featuring curved side cutters, the Craig Quik Fill Ditching Bucket is designed to allow the bucket to be pulled towards the excavator with greater ease.

EXB-HACL
HYDRAULIC ANGLING CLEAN UP BUCKET

The Craig Hydraulic Angling Clean Up Bucket features a flat bottom design with angled cylinders, to prevent material build up, that offers up to 45° of rotation left and right. Available with a straight or serrated cutting edge.

EX-PLT
PROGRESSIVE LINK HYDRAULIC THUMB

When you need the ultimate in maneuverability, look no further than the Craig Progressive Link Hydraulic Thumb. Delivering up to 160° of constant gripping power throughout virtually the entire rotation of the bucket.

EX-RT
RIPPER / FROST TOOTH

More than just a frost tooth, the Craig Ripper Tooth is designed for extra heavy duty applications where other rippers fail. Engineered for maximum penetration, the double reinforced shank joins a gusseted, boxed, lugging plate for unparalleled strength.

EXB-DCTR
TRAPEZOID BUCKET

Ditch and grade at the same time with the Craig Trapezoid Bucket. The flat, narrow bottom makes it ideal for pipe laying operations and makes for less gravel needed when filling the trench back in. Comes standard with bolt-on reversible, replaceable cutting edges. Flat bottom available with teeth for added ground penetration.

An excavator equipped with a Heavy Duty Trenching Bucket.

LOADER CONSTRUCTION ATTACHMENTS

WL-CVMC COMBO COUPLER

Offering superior visibility and minimal extension on the loader arms, the Craig Combo Coupler allows your machine to pick up existing OEM specific attachments.

WL-QKM QUIK KEY COUPLER

The Craig Quik Key coupler system allows for maximum work site and seasonal versatility. Change attachments in just seconds. Purchase our female blank to add to existing attachments or other heavy job site items that need to be moved frequently.

WL-GP GENERAL PURPOSE BUCKET

The Craig General Purpose Bucket is the result of over 70 years of field tested, proven design and manufacturing capability.

WL-GPP PERFORMANCE BUCKET

Use your machine to its full potential with the Craig Performance Bucket. Featuring curved side cutters, the Craig Performance Bucket allows for a greater heaped capacity over the traditional General Purpose bucket giving you an advantage when it comes to loading trucks.

WL-SDB SIDE DUMP BUCKET

Working in tight quarters? The Craig Side Dump Bucket is for you. Designed to work safely with your specific machine, the Side Dump Bucket allows conventional loading and lateral unloading for material. Simply pull up beside the truck or trench and dump the bucket sideways hydraulically. Eliminates excess loader travel and lost time.

- Boxed back frame offers superior strength and rigidity
- Equipped with rugged 5" cushion head cylinder
- Bolt-on reversible cutting edges
- Available in Craig Quik Key, OEM coupler and Pin-on configurations
- Available in left hand dump (standard) or right hand dump (optional)
- Mechanical side dump lock mechanism standard. Optional hydraulic lock mechanism available
- Optional third valve required on machine
- Critical wear areas utilize Brinell 400 wear plate
- Drilled to accept dealer specified edge, installed

WL-CMP MULTI-PURPOSE BUCKET

Multiply the productivity of your wheel loader with a Craig Multi-Purpose Bucket. Use it as a conventional bucket, a dozer blade, a clam grapple, a belly dump, a backfill scraper, or add pallet forks for material handling. Dual cylinders and heavy duty boxed frame construction ensure that it's up for any task.

WL-CGS CRAIG GRAVEL SCOOP

Perfect for working in hard to reach areas, the Craig Gravel Scoop allows the operator to place loose material with precision – meaning less material lost.

WL-CPF6070/CPF2050 PALLET FORKS

The CPF2050 is the standard hanging tine pallet fork designed for wheel loaders available from Craig. Features a low profile back frame that offers great visibility to the tines. The CPF6070 is the heavy duty variation, it features thicker end plates, larger tubing, and pins. Both prevent the tines from swinging out. Fork spacing is adjustable with dual hanger bars that feature tine locks to prevent tines from moving

WL-QKSB CRANE BOOM

Bucket lift hooks can be dangerous, they're also inefficient. Reach further, more accurately and with better visibility by using the Craig Crane Boom. Available in 2-section or 3-section configurations, a crane boom increases the reach and material handling capabilities of any wheel loader.

WL-0600 HYDRAULIC REVERSIBLE PLOW

The result of over 70 years of design improvements, this reversible is the industry leader in snow equipment for wheel loaders today. The full floating frame follows the contour of the road both laterally and horizontally to ensure maximum contact.

WL-HAFFT HYDRAULIC ADJUSTABLE PALLET FORKS

Change tine spacing on-the-fly from inside the cab with the Craig Hydraulic Adjustable Pallet Forks. This hanging tine design features two synchronous cylinders to ensure smooth operation. Fork tines allow up to 4" of vertical travel for picking up loads on uneven ground.

WL-BFH HYDRAULIC REVERSIBLE BACKFILL BLADE

This dozer blade's wide cylinder stance provides maximum hold strength while dozing. The cutting edge is gusseted between each mounting hole and a smooth boxed back frame keeps the moldboard light and strong.

A General Purpose Bucket on a loader.

GRADER CONSTRUCTION ATTACHMENTS

MG-100/107 LIFT GROUP PLOW HARNESS

This Plow Harness will accept all Craig models of snow plows: one way, vee plow, reversible and dozer blades.

MG-100UNI UNIVERSAL PLOW HARNESS

The Craig Universal Plow Harness features all of the great rugged design features of our standard 100PH while allowing you the flexibility of picking up all Craig Champion and Viking style plows. It's available for all major grader brands and is ideal for extending the usable life of your existing stock attachments.

MG-850 STRAIGHT FIXED DOZER BLADE

Available in 8', 9', and 10' blades, this fixed dozer blade works with our standard lift group plow harness. Available in a variety of hookups.

- Reversible replaceable steel cutting edge
- Extra thick moldboard eliminates moldboard flex and ensures long wear life

MG-QKMG PARALLEL QUICK HITCH LIFT GROUP

The Craig Parallel Quick Hitch Lift Group system allows for maximum work site and seasonal versatility. Change front mount grader attachments in just seconds. Female blanks available for converting existing attachments.

MG-855 SCARIFIER MOUNT DOZER BLADE

Specifically designed to work with OEM front mount scarifiers, this 9' blade slips over the scarifier tool bar and is locked in place using the OEM scarifier teeth.

MG-850-CH CHAMPION STYLE DOZER BLADE

The Craig Champion Style Dozer Blade uses a time proven design that offers a rugged hook-up with two stabilizing arms, down pressure strut, and end gates to stop material from flowing out over the edges of the moldboard.

MG-851 MANUAL ANGLING DOZER BLADE

Available in 10', 11', and 12' blades, the Craig Manual Angling Dozer blade offers 30° of angle in both directions for maximum versatility. It is recommended to work with a parallel lift harness.

MG-CS-FM FRONT MOUNT SCARIFIER

Designed to bolt directly to the front head block of the grader, the Craig Front-Mount Scarifier offers a parallel lift design to maintain the scarifier angle at all heights.

MG-WEIII SERIES III WINDROW ELIMINATOR

A rugged solution for reclaiming the road shoulder. The Series III Windrow Eliminator features a robust design with a parallel lift system. Eliminates the need for an extra pass, saving time and energy for your operation. Available in manual and hydraulic adjusting tires.

MG-WEII SERIES II WINDROW ELIMINATOR

A rugged solution for reclaiming the road shoulder. The Series II Windrow Eliminator features a robust design with a parallel lift system. Eliminates the need for an extra pass, saving time and energy for your operation. Available in manual and hydraulic adjusting tires.

MG-FD CUSTOM STEEL FENDERS

Available as fronts, rears or complete sets exclusively on late model CAT or Deere motor graders. These super heavy duty steel fenders will stand up to the harshest conditions.

A grader equipped with a **series II Windrow Eliminator** and Craig plow harness.

BACKHOE CONSTRUCTION ATTACHMENTS

A **General Purpose Bucket** on a backhoe.

BH-GP GENERAL PURPOSE BUCKET

Each Craig General Purpose Bucket has been specifically designed to work with your machine's OEM geometry to its full potential. These buckets will work day-in and day-out on the toughest job sites.

BH-LM LIGHT MATERIAL BUCKET

Maximize each load, save time and money. Whether you're loading wood chips, saw dust, peat moss, hog fuel, snow or any other light material you want to load to your machine's capacity. Our engineers can design to meet any application.

BH-CMP MULTI-PURPOSE BUCKET

Multiply the productivity of your backhoe with a Craig Multi-Purpose Bucket. Use it as a conventional bucket, a dozer blade, a clam grapple, a belly dump, a backfill scraper, or add pallet forks for material handling. Dual cylinders and heavy duty boxed frame construction ensure that it's up for any task.

BHB-HD HEAVY DUTY TRENCHING BUCKET

Craig backhoe buckets are built to the same rugged standard as our excavator buckets. Superior quenched and tempered Brinell 400 steel is used in all wear areas.

BHB-CBB CRAIG BITE BUCKET

The 4-in-1 Bite Bucket is a versatile tool combining all the best aspects of a standard dig bucket, clam grapple, ditch bucket and chuck blade. With this one attachment you can minimize the need for additional machines on the job site. Dig like a standard bucket, move materials securely, grade the finished piece with the straight cutting edge, skim ground cover with the serrated reverse clam edge or securely grab a piece of I-beam to smooth large areas all at once. This bucket is also great for accurately spreading aggregate into trenches by using the bucket as a belly dump.

- Superior Brinell 400 steel is used in all wear areas
- Available in Wedge Lock, Pin-on, S Series or Manual Bar Lock lugging
- Various ground engaging tools available to meet your specifications
- Pin-on hook-ups are bored to OEM tolerances

WL-CPF6070/CPF2050 PALLET FORKS

The CPF2050 is the standard hanging tine pallet fork designed for wheel loaders available from Craig. Features a low profile back frame that offers great visibility to the tines. The CPF6070 is the heavy duty variation, it features thicker end plates, larger tubing, and pins. Both prevent the tines from swinging out. Fork spacing is adjustable with dual hanger bars that feature tine locks to prevent tines from moving

BH-QKSB CRANE BOOM

Bucket lift hooks can be dangerous, they're also inefficient. Reach further, more accurately and with better visibility by using the Craig Crane Boom. Available in 2-section or 3-section configurations, a crane boom increases the reach and material handling capabilities of any backhoe.

STAFFED WITH INDUSTRY PROFESSIONALS, THE CRAIG CUSTOMER SUPPORT CENTER IS READY TO HELP YOU WITH YOUR HEAVY EQUIPMENT ATTACHMENT NEEDS.

Our responsive team of professionals make doing business with Craig easy! Whether you're purchasing new, looking to bring new life to an existing attachment, or need assistance with attachment operation, the Craig Customer Support Center is here to help.

Call the Craig Customer Support Center today for all your heavy equipment attachment needs.
