

# OUR MISSION

## CUSTOMERS

Craig is dedicated to providing the highest quality products and support to allow our customers to unlock the maximum potential productivity of their equipment.

## TEAM MEMBERS

We are committed to providing our Team Members with a stable, 5S and safe working environment that encourages personal and team development. Team creativity and innovation are the cornerstones on which our company has been built and only through these achievements will it succeed.

# LOADER FORESTRY ATTACHMENTS

## WL-CLLF LOG AND LUMBER FORKS

Excellent for handling tree length or bolt length logs, the Craig Log and Lumber Fork also features "L" shaped tines for handling stickered lumber and loaded lifts. The fork frame features a cylinder-tower design which keeps the top of the back frame low, while the top clamp is made from superior AR 100 steel for an open design. Ensuring maximum visibility keeps the operation efficient and safe.

## WL-CLR LAND CLEARING RAKE

The Craig Land Clearing Rake transforms your loader into a versatile land clearing tool. Perfect for working with logging slash for biomass fuel collection and site preparation for re-planting. The boxed frame design provides maximum strength and high visibility while long and curved rake teeth offer superior load capacity.

## WL-SL SAW LOG GRAPPLE

Designed and tested under severe working conditions in the heaviest logging mill applications. This grapple is a time-proven winner for the sorting and moving of tree-length or logs.

- Boxed frame design for superior strength
- Dual cylinders
- Can be customized to your specific needs
- Available in Craig Quik Key, OEM coupler and Pin-on configurations
- Optional third valve required on machine
- Versions: General Purpose, Sorting, Unloading

## WL-QKM QUIK KEY COUPLER

The Craig Quik Key coupler system allows for maximum work site and seasonal versatility. Change attachments in just seconds. Purchase our female blank to add to existing attachments or other heavy job site items that need to be moved frequently.

## WL-CVMC COMBO COUPLER

Offering superior visibility and minimal extension on the loader arms, the Craig Combo Coupler allows your machine to pick up existing OEM specific attachments.

## WL-SLWC SAW LOG GRAPPLE BUCKET

The Saw Log Grapple Bucket converts the Saw Log Grapple to a bucket so you can go from clearing logs to clearing land. The Bucket easily fits into the original attachment and locks into place by clamping down the grapple so it is hands-free.

## WL-CMG LOADER MAT GRAPPLE

Designed for work in the oil fields, the Craig Mat Grapple for wheel loaders is the perfect tool for moving drilling mats around the job site.

## WL-HT HIGH TIP BUCKET

Increase the dump height of your wheel loader with a Craig High Tip Bucket. On most machines you can increase your dump height to the OEM boom pin height allowing for applications such as loading high-side trucks without the need of a ramp.

## WL-LM LIGHT MATERIAL BUCKET

Maximize each load, save time and money. Whether you're loading wood chips, saw dust, peat moss, hog fuel, snow or any other light material you want to load to your machine's capacity. Our engineers can design to meet any application.

## WL-GP-M MULCH BUCKET

This standard 56' bucket (available up to 72') provides an accurate struck capacity of 1 cubic yard or 1.19 cubic yards heaped. Its deep narrow design allows for accurate loading of quarter ton or half ton pickups in the commercial sale of mulch.

A Saw Log Grapple on a loader.

# EXCAVATOR FORESTRY ATTACHMENTS

## EXB-HD HEAVY DUTY TRENCHING BUCKET

Craig excavator buckets are designed and built to meet your specifications. Superior quenched and tempered Brinell 400 steel is used in all wear areas.

## EXB-XHD EXTRA HEAVY DUTY TRENCHING BUCKET

Extra Heavy Duty Buckets feature thicker G40 steel throughout their construction – including thicker Brinell 400 wear plate on the runners and side front plate.

## EXB-SS HYDRAULIC TRIP SWIVEL

Craig Severe Service Buckets are specifically designed to meet your toughest applications. Superior Brinell 400 quenched and tempered steel is used in the mainsheet, end-plates, horizontal wear bars and base edge.

## EXB-HDINT INTEGRATED THUMB TRENCHING BUCKET

Ideal for multi-function excavators, the Craig Integrated Thumb Trenching Bucket comes with the thumb attached to the bucket. This allows the excavator to completely remove the bucket and thumb - reducing weight and saving fuel.

## EX-LCR LAND CLEARING RAKE

For forestry and site preparation – the Craig Land Clearing Rake works to quickly sort and clear large piles of debris with ease.

- 4, 5, 6 and 7 tooth configurations available in up to 101" widths – depending on machine size
- Unique rake profile makes it the ideal tool for stumping and loading
- Available in Wedge Lock, Pin-on, S Series or Manual Bar Lock lugging
- Various ground engaging tools available to meet your specifications
- Pin-on hook-ups are align bored to OEM tolerances

## EX-CBR CRAIG BRUSH RAKE

The Craig Brush Rake is a medium duty brush rake designed for efficient moving and sorting of brush on the job site. The profile of the rake is optimized for working with brush and other loose material. For stumping applications Craig recommends the Craig Stump Shear or the Craig Land Clearing Rake.

## EX-RT RIPPER / FROST TOOTH

More than just a frost tooth, the Craig Ripper Tooth is designed for extra heavy duty applications where other rippers fail. Engineered for maximum penetration, the double reinforced shank joins a gusseted, boxed, lugging plate for unparalleled strength.

An excavator equipped with a **Land Clearing Rake** with Thumb attachment.

An excavator equipped with a **Rotating Matt Grapple**.

#### EXM-CWL CONVERTIBLE WEDGE LOCK COUPLER

The Craig Convertible Wedge Lock Coupler features a light weight, low profile design that maintains your machines OEM tip radius while offering a quick coupling system. Available as either a hydraulic or manual coupler, both configurations share the same chassis allowing them to be easily switched to either configuration at any time with a Craig supplied kit.

#### EXM-CQL2 CRAIG QUIK LOC GEN .2

Featuring an instant quick locking knuckle, the Craig Quik Loc Gen. 2 – powered by Cascade – is the ultimate in excavator pin grabber safety. A unique wedge style design allows the Craig Quik Loc Gen. 2 to be light weight and low profile – meaning more attachment capacity.

#### EX-CMG EXCAVATOR ROTATING MAT GRAPPLE

Perfect for loading, unloading, placing, and cleaning mats, the Craig Excavator Rotating Mat Grapple is the ideal tool to increase productivity and enhance matting capabilities. Features dual high torque motors for continuous 360° rotation and a low profile cylinder design that allows for greater opening capability and added stability over the competition.

- Two grapple sizes available capable for carrying 8' wide mats
- 120 – 150 class grapple capable of carrying two mats (~5,000 lbs\*)
- 200 – 300 class grapple capable of carrying four mats (~10,000 lbs\*)
- Available in 2 clamp configurations – paddle and rake or two paddles
- Optional valve in head control kit available – requires only one set of auxiliary lines
- Dual bushings at all pivot points with grease fittings
- Torque tube design and AR 100 plate construction in rake and paddle

\* Max capacity subject to machine capability

#### EX-CUT DIRECT LINK HYDRAULIC THUMB

Our signature thumb – the Craig Direct Link Hydraulic Thumb, features a four tooth inter-meshing design and boxed frame. This thumb provides superior grip and dexterity for day-in and day-out material handling.

#### EX-PLT PROGRESSIVE LINK HYDRAULIC THUMB

When you need the ultimate in maneuverability, look no further than the Craig Progressive Link Hydraulic Thumb. Delivering up to 160° of constant gripping power throughout virtually the entire rotation of the bucket.

#### EXB-CGB CRAIG GRAB BUCKET

An excavator grapple and dig bucket all-in-one, the Craig Grab Bucket is the perfect tool for when you need an alternative to a conventional thumb. Features dual thumb cylinders on the bucket for greater gripping force that follows the bucket throughout the entire curl cycle. NOT AVAILABLE IN THE USA.

#### EXB-CGB2 GRAB BUCKET SERIES 2

The Craig Grab Bucket S.2 is our newest adaptation of our Grab Bucket. The Helical Actuator can produce up to 54,000 foot-pounds of torque at 3000 PSI. This means a continuous grip throughout the bucket's rotation. And because the thumb is directly mounted on the bucket, you can drop the entire attachment as one piece.

**STAFFED WITH INDUSTRY PROFESSIONALS, THE CRAIG CUSTOMER SUPPORT CENTER IS READY TO HELP YOU WITH YOUR HEAVY EQUIPMENT ATTACHMENT NEEDS.**

Our responsive team of professionals make doing business with Craig easy! Whether you're purchasing new, looking to bring new life to an existing attachment, or need assistance with attachment operation, the Craig Customer Support Center is here to help.
