

A trained machinist, Woodford (Woodie) Craig founded Craig Manufacturing in 1946 along with the encouragement and aid of his father, Washington. Operating as a service station and machine repair shop, it was not long before Woodie put his training to work and began fabricating with metal. No project was too big or too small - at one point Craig even built a river ferry. Snow plows and wings on trucks, graders, and loaders eventually became the focus that led to attachment manufacturing.

Ben, John's only son, joined the business in 2006 adding his energy and training. A new branch was opened in Cambridge, Ontario in 2008 to better serve Central Canada and U.S.A. In 2013 a building was leased to open a branch in Red Deer, Alberta to better serve our customers in Western Canada and U.S.A.

Continuing a pattern of growth, Craig Manufacturing sought to have their own building in Alberta and in 2017 construction began on a brand new facility in Blackfalds, Alberta. The purpose built facility was completed in early 2018 and the Craig Alberta team made the move to their new home in February. Just a few months following this, plans began for the next Craig location. In October 2018 Craig Manufacturing officially announced their first USA location in Lawrenceburg, Tennessee - open for production in spring 2019.

Over 75 years later Craig Manufacturing still maintains focus on remaining a trusted, quality supplier of heavy equipment attachments who understands and values its customers.

## **FAMILY OWNED SINCE 1946**

John, Woodie's only son, joined the family business 30 years later in 1976. The business continued to thrive and the product line expanded with the markets. When a disastrous fire destroyed the entire business in 2005, John used the opportunity to build a larger facility designed with the most efficient equipment and lean manufacturing processes in mind.

Always striving to improve, Craig Manufacturing endeavoured to expand the Hartland facility in 2015. Completed in 2016, the expansion has allowed for increased production capacity as well as increasing manufacturing capability to handle weldments up to 30 tons.

# CRAIG PRESENTED

# THE CRAIG PORTAL IS YOUR GATEWAY TO CRAIG PARTS AND ATTACHMENTS!

#### FOR PARTS

Order your Craig parts online with the Craig Portal. Skip the phone call, login to get quotes and place orders for replacement parts.

### FOR ORDERS & INVOICES

With the Portal, you can also track invoices and shipments so you never have to wonder where your order is!

### FOR ATTACHMENTS

Portal allows you to configure a custom attachment quote in minutes. The Craig Portal guides you through to what you need with ease and gets you a quote quickly and simply 24/7.

**INDUSTRIES WE SERVE** Construction, Oil and Gas, etc.

# **CONTRACT** MANUFACTURING

WE ARE HAPPY TO WORK WITH YOU TO DESIGN AND MANUFACTURE YOUR PROJECTS OR TO **MEET YOUR CONTRACT MANUFACTURING REQUIREMENT – PRODUCTION CAPABILITY IN** CANADA AND THE US.

## **SERVICES WE PROVIDE**

• CUTTING • MACHINING • BORE BUILD UP AND REPAIR • CYLINDER DESIGN AND MANUFACTURING • SANDBLASTING • WELDING • PAINTING • ASSEMBLY • AND MORE!

Building attachments since 1946, we pride ourselves in the vision that attachments built right, fit right. Don't settle for less when you spec your next heavy equipment attachment, call Craig for your next contract manufacturing project.

# MACHINE **CATEGORY GUIDE**

## **CRAIG MANUFACTURING IS AN INNOVATIVE LEADER IN CUSTOM HEAVY EQUIPMENT ATTACHMENT MANUFACTURING.**

Offering an extensive line of attachments for heavy equipment, Craig Manufacturing has you covered from light duty landscaping to heavy duty construction and mining. With attachments available on more machines than ever before, Craig is truly your onestop-shop for all your heavy equipment attachment and service needs.

This guide illustrates the wide array of machine categories that we service. Call the Craig Customer Support Center today and discover why we are your custom attachment experts since 1946.

# EXCAVATOR

A Heavy duty trenching bucket with a Direct link hydraulic thumb on an excavator. The thumb features a four tooth inter meshing design, it provides up to 120 degree gripping rotation. This attachment is perfect for any material handling shown here cleaning up a demolished house in Hartland, NB.

# EXCAVATOR ATTACHMENTS

# **BUCKETS**

#### EXB-HD / EXB-XHD / EXB-SS **EXCAVATOR TRENCHING BUCKET**

#### EXB-HD

Heavy Duty Buckets are designed for medium abrasion, medium impact job sites. Recommended for common digging applications.

#### EXB-XHD

Extra Heavy Duty Buckets are designed for high abrasion, medium impact job sites. Recommended for digging in tough soil conditions.

#### EXB-SS

Severe Service Buckets are designed for high abrasion, high impact job sites. Recommended for the toughest digging conditions. Custom configurations available to meet your specific tough job site needs.

#### MEGA ARMOUR SEVERE SERVICE TRENCHING BUCKET

The ultimate trenching bucket for excavators working in the most extreme applications. The Craig Mega Armour Severe Service Trenching Bucket features extensive plating and wear components in key areas to reduce wear in high abrasion, high impact job sites.

**QUIK FILL TRENCHING BUCKET** 

The Craig Quik Fill Trenching Bucket is available in Heavy Duty, Extra Heavy Duty, and Severe Service variations. Designed to fill more efficiently, saving time and fuel. Weld-on side cutters come standard

## EXB-DC DITCHING BUCKET

Ideal for ditching and grading, the Craig Ditching Bucket features a wide, shallow, smooth-curl design. Bolt-on replaceable, reversible cutting edge available.

The Craig Hydraulic Angling Clean Up Bucket features a flat bottom design with angled cylinders, to prevent material build up, that offers up to 45° of rotation left and right. Available with a straight or serrated cutting edge.

HYDRAULIC ANGLING CLEAN UP BUCKET

The Craig Hydraulic Angling Ditching Bucket has a flat cylinder desian to keep the tip radius to a minimum. This desian allows for a full 45° of rotation.

EXB-DCQF QUIK FILL DITCHING BUCKET

Featuring curved side cutters and a smooth bottom wear sheet, the Craia Quik Fill Ditchina Bucket is designed to allow the bucket to be pulled towards the excavator with greater ease, leaving a smoother finish.

FXR-DCSI

SKELETON DITCHING BUCKET

Designed for separating rocks and other large materials from loose

soil, the Craig Skeleton Ditching Bucket features a profile that

is optimized for ditching/shaping applications.

EXB-SR CRAIG SKELETON ROCK BUCKET

The Craig Skeleton Rock Bucket is designed for separating rocks and other large materials from loose soil. The SR bucket for excavators is made of durable steel to last tough applications. Slots sift loose material to separate rocks.

Craig Clean Up Buckets feature a larger capacity than our standard ditching bucket and constructed with higher grade steels for those jobs that require more than a ditching bucket. Available with a straight or serrated cutting edge.

EXB-DCTR TRAPEZOID BUCKET

Ditch and arade at the same time with the Craia Trapezoid Bucket. The flat, narrow bottom makes it ideal for pipe laving operations and makes for less bedding material needed when filling the trench back in. Comes standard with bolt-on reversible, replaceable cutting edges. Flat bottom available with teeth for added ground penetration.

The rock slab bucket expertly gets under lavers of rock to break and remove chunks and slabs of rock. The smooth edge makes it easy to slip between layers of rock to pry and lift slabs.

## EXB-BB BLUEBERRY BUCKET

Developed specifically for prepping fields for mechanical harvest. The shallow cutting edge pierces the ground and smooths soil underneath established plants with minimal impact on the root bed and surrounding area.

The v-shape trench bucket is the perfect bucket for pipe laying in rocky/fractured ground conditions. The v-shape of the bucket also reduces the amount of bedding material that will be required in the trench thus reducing the cost to install pipe. All teeth engage the ground at the same time which leaves a smooth trench bottom.

HYDRAULIC ANGLING DITCHING BUCKET

#### EXB-HADCSS SEVERE SERVICE HYDRAULIC ANGLING **DITCHING BUCKET**

This heavy-duty version of our Craig Hydraulic Angling Ditching Bucket is the perfect tool for all your ditching, grading, and contouring needs. The Craig Severe Service Hydraulic Angling Ditching bucket features a complete bucket weldment of brinell 400 steel, brinell 450 cheek plates, and hardened bushings at all pivot points while avarding the cylinders for maximum protection.

## EXB-SLAB CRAIG SLAB BUCKET

## EXB-PR / EXB-CR PAVEMENT/CURB REMOVAL BUCKET

Featuring a wide, shallow, flat design, this bucket is ideal for removing pavement with as little aggregate disruption as possible. Raised segments allow the bucket to slide under surfaces with minimal force.

The excavator sand bucket has a scoop shape with a flat bottom to sit on the ground for easy attachment while the shape is perfect for scooping materials like sand and fine gravel.

# EXCAVATOR ATTACHMENTS

**CONVERTIBLE WEDGE** LOCK COUPLER

The Craig Manual Convertible Wedge Lock Coupler features a light

tip radius while offering a guick coupling system. This coupler can

weight, low profile design that maintains your machine's OEM

easily be upgraded to our Hydraulic version with a Craig

supplied kit.

EXF-HA HAMMER ADAPTER

Available for all makes and models of hydraulic hammers and plate compactors. Available with Wedge Lock, OEM pin-on, S-Series, or manual bar lock lugging.

**CRAIG S-STYLE COUPLER** 

S1, S2, and S3 styles available to pin onto any excavator. The Craig S-Style Coupler features both audible and visual indicators to let the operator know when the coupler is engaged and disengaged. The low profile design allows for your machine to maintain breakout force while having the convenience of a quick coupling system.

FROST BUCKET

Tear through frozen ground and trench at the same time to cut

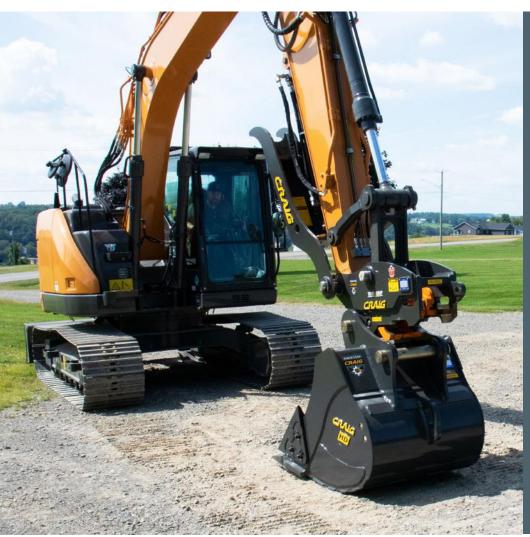

Adco style teeth come standard for superior ground penetration.

your winter digging time in half with the Craig Frost Bucket.

**GRAB BUCKET** 

An excavator grapple and dig bucket all-in-one, the Craig Grab Bucket is the perfect tool for when you need an alternative to a conventional thumb. Features dual thumb cylinders on the bucket for greater gripping force that follows the bucket throughout the entire curl cycle. Bucket not available in the U.S.A.

**Craig TRUEGRIP** 

The Craig TrueGrip pin grabber has a simple and reliable design. It features 2 independent locks and has visual safety indicators that allow the operator to ensure both the front locking knuckle and rear latch are engaged. Works with most OEM Coupler Kits (confirm with Craig) or can be supplied with a Craig hydraulic kit.

#### Tilt TRUEGRIP

The Truegrip Tilt coupler combines angled cylinders and the truegrip coupler to make your current bucket a tilt bucket. The cylinders allow the operator to tilt the attachment up to 45 degrees side to side. The coupler is multi pin compatible and the 2 locks attach quickly and are visible from the cab.

EXB-DGB DUAL GRAB BUCKET

This Craia Dual Grab Bucket is the perfect tool for land clearing and demolition iob sites. It features dual thumb cylinders on the bucket for greater gripping force that follows the bucket throughout the entire curl cycle. The 2 thumbs are mounted directly to the bucket giving you superior machine versatility and allows you to drop the entire thumb and bucket assembly as one piece.

thumb into an all in one attachment that excels at tough forestry

applications that require picking, sorting, and shaking free non

fibrous debris during land clearing and grubbing applications. A

helac rotator is used to operate the thumb and provides a strong and constant grip on material in the rake through the rake's rotation. The helac rotator has no exposed shafts and is sealed for

a long service life.

Ideal for multi-function excavators, the Craig Integrated Thumb Trenching Bucket comes with the thumb attached to the bucket. This allows the excavator to completely remove the bucket and thumb - reducing weight and saving fuel. Due to the design of this bucket/thumb combination, the thumb can remain stationary/ tucked up against the stick while the bucket is in motion digging and trenchina.

For forestry and site preparation the Craig Land Clearing Rake works quickly to sort and clear large piles of debris. Profile is designed to carry and sort material efficiently.

EXB-LCR-CGII CRAIG LAND CLEARING RAKE SERIES 2 The Craig Land Clearing Rake Series 2 combines a rake and a

The Craig Grab Bucket S.2 is our newest adaptation of our Grab Bucket. The Helical Actuator can produce up to 54,000 foot-pounds of torque at 3000 PSI. This means a continuous arip throughout the bucket's rotation. The thumb is directly mounted on the bucket, you can drop the entire attachment as one piece.

EXB-HDINT INTEGRATED THUMB TRENCHING BUCKET

EXB-CBB 4-IN-1 BITE BUCKET

Combines all the best aspects of a standard dig bucket, clam grapple, ditch bucket, and chuck blade. The Craig 4-in-1 is a great alternative to a bucket and thumb for smaller excavators and backhoes.

EX-LCR LAND CLEARING RAKE

The Craig Brush Rake is a medium duty rake designed for efficient moving and sorting of brush on the job site. The profile of the rake is optimized for working with brush and other loose material.

# EXCAVATOR ATTACHMENTS

EXCAVATOR SNOW BLADE

Utilizing a unique design with bolt-on cheek plates and replaceable edaes, the Craia Excavator Snow Blade is the ideal solution for your excavator to clear snow from the work site.

HYDRAULIC ANGLING CHUCK BLADE

Another version of the typical tilt bucket is the Craig Hydraulic Angling Chuck Blade. It is ideal for grading in clay or other sticky materials.

EX-LB LEVELING BLADE

The Craig Leveling Blade is designed to allow the excavator to perform dozina, backfillina, and levelina tasks. Features a straight fixed blade that can be raised or lowered only. Leveling Blade will lower below the depth of the tracks.

EX-CMG ROTATING MAT GRAPPLE

Perfect for loading, unloading, placing, and cleaning rig mats. The Craia Rotatina Mat Grapple is the ideal tool to increase productivity and enhance matting capabilities. Features dual high torque motors for continuous 360° rotation

Featuring dual reinforced ripper shanks and a heavy duty knife, the Craig Stump Shear allows you to easily remove stumps and shake rocks and debris from the root system prior to splitting and sorting wood fibre.

## THUMBS

features a tooth inter-meshing design, custom designed to match your primary bucket. Features superior grip and dexterity for day-in and day-out material handling.

- Up to 120° of gripping rotation Inter-meshes with bucket teeth
- •
- Installation and hydraulic kits available
- Tucks close to the stick when not in use for great <u>visibility</u>
- Custom configurations available upon request •

Based on our signature Direct Link Thumb, the Heavy Duty Direct Link Thumb offers all the same great features as our standard thumb, including up to  $120^{\circ}$  of gripping rotation. Features a boxed construction and upgraded steel for added rigidity and wear when working in tough applications.

The Craig Grab Thumb profile and design is optimized to suit the primary trenchina bucket. Thumb tines are designed to match the tip radius of the bucket teeth to allow for precision grappling and placement of items.

The Craig Hydraulic Pad Mount Thumb is a universal stocking solution for outfitting machines with a durable, easily installed, fully hydraulic thumb that is field customizable to the specific tip radius of each machine.

**GRAPPLES** 

CONTRACTOR GRAPPLE

The boxed construction makes this grapple ideal for demolition or material handling sites of all sizes. It's wide design securely moves odd shaped objects with ultimate dexterity.

EX-CPG EXCAVATOR PIPE GRAPPLE

An ultra low profile design, the Craig Excavator Pipe Grapple is the best tool for loading and unloading pipe at the job site. Features areat visibility for added safety and dual reinforced top clamps.

EX-CTS STUMPER

The Craig stumper is the ultimate tool for stump removal and

land clearing applications. Complete with a dual shank design to

remove stumps with a minimal disturbance to the soil. Minimal

soil disturbance improves land clearing efficiency by reducing filling

and grading.

More than just a frost tooth, the Craig Ripper Tooth is designed for extra heavy duty applications where other rippers fail. Engineered for maximum penetration, the double reinforced shank joins a gusseted, boxed lugging plate for unparalleled strength.

**PROGRESSIVE LINK THUMB** 

Delivering up to 160° of gripping rotation, the Craig Progressive Link Thumb offers the ultimate in maneuverability. Improved gripping power throughout virtually the entire rotation of the bucket.

CRAIG GRAB THUMB

STICK MOUNT THUMB

The Craig Stick Mount Thumb is the perfect solution for outfitting machines with a durable and easily installed thumb. When not in use the thumb tucks up close to the stick for unparalleled visibility and convenience.

Designed for efficient crushing and sorting of concrete, the Craig Concrete Pulverizer uses the bucket cylinder on the excavator so no additional hydraulic lines are required. Comes with a brace and three hole bracket to be welded to the machine's stick.

# TILT ROTATOR ATTACHMENTS

EXB-GHD GRADING BUCKET HEAVY DUTY

Designed for efficient grading with a tilt rotator. Features a beveled corner design to retain material as well as to fully release material.

EX-HDDB HEAVY DUTY DIG BUCKET

The proven design of the Craig Heavy Duty adapted to work with a tilt rotator. Designed for medium impact and medium abrasion applications.

#### EXB-CHD HEAVY DUTY CABLE BUCKET

Designed for excavation with minimal disturbance to surrounding soil. The narrow width deep profile is optimized for reaching beneath intersecting cables without having the tilt rotator go below grade.

EX-RT RIPPER TOOTH

More than just a frost tooth, the Craig Ripper Tooth is designed for extra heavy duty applications where other rippers fail. Engineered for maximum penetration, the double reinforced shank joins a gusseted, boxed, lugging plate for unparalleled strength.

EX-SR SKELETON ROCK BUCKET

The Craig Skeleton Rock Bucket is designed for separating rocks and other large materials from loose soil. The SR bucket for excavators is made of durable steel to last tough applications. Slots sift loose material to separate rocks.

EXB-DC-TR TRAPEZOID BUCKET

Ditch and grade at the same time with the Craig Trapezoid Bucket. The flat, narrow bottom makes it ideal for pipe laying operations and makes for less bedding material needed when filling the trench back in. Comes standard with bolt-on reversible, replaceable cutting edges. Flat bottom available with teeth for added ground penetration.

Available for all makes and models of hydraulic hammers and plate compactors. Available with Wedge Lock, OEM pin-on, S-Series, or manual bar lock lugging.

EXB-PR / EXB-CR PAVEMENT / CURB REMOVAL BUCKET

Featuring a wide, shallow, flat design, this bucket is ideal for removing pavement with as little aggregate disruption as possible. Raised segments allow the bucket to slide under surfaces with minimal force.

EX-CUF CRAIG UTILITY FORKS

Allows the excavator to maneuver pallets and material for maximum utility of the machine on the job site.

# LOADER

A beautiful shot of a wheel loader equipped with our Heavy Duty Rock Bucket. Working in a gravel pit near the Canadian Rockies, the WL-RBVHD makes sure the job gets done right!

# LOADER ATTACHMENTS

# BUCKETS

#### WL-GP / WL-GPP **GENERAL PURPOSE**/ PERFORMANCE BUCKET

Custom options are available to properly outfit your General Purpose Bucket for your specific job site requirements.

#### WL-GP

The General Purpose Bucket is the result of over 70 years of field tested, proven design and manufacturing capability. Conventional side cutter design maximizes break-out force.

#### WL-GPP

The Craig Performance Bucket is designed to load trucks faster than a conventional General Purpose Bucket. Convex side cutters offer improved material retention during load/ carry cycles. A European style spill guard protects the loader cylinders and linkages from material spillage.

WL-CMP **MULTI-PURPOSE BUCKET** 

With a design that's been proven worldwide in military applications, the Craig Multi-Purpose Bucket is one of the best 4-in-1 loader buckets on the market. Made of high quality steel materials, this bucket will transform your loader into an efficient multi-tool on any job site.

WL-LM / WL-WC LIGHT MATERIAL/WOOD CHIP BUCKET

Engineered to maximize your machine's capacity based on the material you're loading. The Craig Light Material Bucket is ideal for wood chips, saw dust, peat moss, snow, and any other light material you want to load to your machine's capacity.

WL-LMFS / WL-LMCS FEED LOT/CORRAL BUCKET

Features a large curved top clamp that is ideal for handling round bales, silage or manure in feed lot/corral style applications.

WL-HTLM / WL-HTWC HIGH TIP LIGHT MATERIAL/ WOOD CHIP BUCKET

Craig High Tip Buckets are designed to provide wheel loaders with additional dump height. Typically on machines you will increase your dump height to exceed the OEM boom pin height allowing loaders to easily load live/walking floor trailers and hoppers without the need of a ramp.

WL-GP-M MULCH BUCKET

Available as narrow as 56", the Craia Mulch Bucket is designed to

provide an accurate load capacity in the commercial sale of mulch.

The deep, narrow design allows for accurate loading of guarter ton

or half ton pickups. Heaped or struck capacity designs available

depending on your operation.

WL-RBVHD / WL-RBSHD HEAVY DUTY ROCK BUCKET

Built to withstand harsh environments and severe service, Heavy Duty Rock Buckets are reinforced with extra thick plate and feature extra wear protection to key wear surfaces. Available in a variety of configurations to fit your needs.

WL-CBX BOXER BUCKET

Designed for clearing leaves, brush, and other light materials, the Craia Boxer Bucket opens to collect a wide path of material and then closes for easy gathering of the material. The material can then be easily dumped into a truck, bin, or hopper by opening the Boxer Bucket over the truck.

#### ST-SCB EJECTOR BUCKET

The Craig Scooptram Ejector bucket is designed to allow for easy loading and unloading of material in underground mining applications where being able to work in confined spaces is crucial. The bucket ejects material by hydraulically pushing the floor of the bucket outwards, eliminating the need to raise the bucket up to dump it.

**HIGH CAPACITY BUCKET** The High Capacity Bucket is the perfect bucket for re-handling stock piles of lighter materials such as soil and argnulars. Shown with performance style side cutters and wing shrouds. The bucket has optional slots in the spill quard to aid in visibility.

The Craig Garbage Clamp Bucket features two independently operated clamps that allow for large capacities of odd shaped and difficult materials to be handled efficiently for loading and sorting. Custom clamps available to work for specific applications.

The Craig Skeleton Rock Bucket is designed for separating rocks and other large materials from loose soil.

WL-CFB FERTILIZER BUCKET

Similar to our standard Light Material Bucket, the Craig Fertilizer Bucket is designed to maximize the buckets struck capacity due to fertilizers inability to heap.

#### WL-SNB SNOW BASKET

A slotted design creates a large capacity, light weight bucket for efficient handling. The slots allow air to escape when pushing into a large mound of snow - ensuring a full bucket. The slots also help to prevent snow from becoming packed into the bucket and not emptying when dumped.

WL-SDB SIDE DUMP BUCKET

Ideal for tight spaces where conventional unloading is dangerous or not possible. The Craia Side Dump Bucket features a hydraulic cylinder and hinge point that allows the bucket to unload laterally while still allowing for conventional loading of the bucket. Left or right side dumping available.

This dozer blade's wide cylinder stance provides maximum hold strength while dozing. The cutting edge is gusseted between each mounting hole and a smooth boxed back frame keeps the moldboard light and strong.

# LOADER ATTACHMENTS

## FORKS & GRAPPLES

**PALLET FORKS** 

Designed for smaller machines, this version of our Pallet Forks features adjustable tines and tine locks to keep tines in place once positioned. A low profile, simplified back frame design allows maximum visibility to the tines for added job site safety.

#### WL-CPF2050 **PALLET FORKS**

This is the standard hanging tine pallet fork design for wheel loaders available from Craig. Features a low profile back frame that offers great visibility to the tines and also prevents the tines from swinging out. Fork spacing is adjustable with dual hanger bars that feature tine locks to prevent tines from moving.

A heavy duty variation on our standard hanging tine pallet fork, the CPF4070 Pallet Forks are designed for larger wheel loaders. Features thicker end plates, larger tubing and pins, and additional reinforcing to prevent the back frame from flexing.

HANGING TINE KIT

Hanging Tine Kits can be added to almost any Craig wheel loader bucket. Utilizing a bar and hook design, you can easily pick up and release the forks without ever leaving the cab. Ideal for machines without a auick coupler to auickly switch between using the bucket to a set of forks.

WI\_CRE

**CAR BODY FORKS** 

Specially designed for salvage and recycling yard applications,

this extra long fork is ideal for moving and sorting cars and light

trucks. Custom sizes available upon request. Features hanging

WI\_CPE\_SC

SHIPPING CONTAINER FORKS

Based on our standard Pallet Forks, Craig Shipping Container Forks

feature a wider back frame designed to allow the forks to line up

with fork pockets on shipping containers. Hydraulic adjustable fork

design available and optons for higher back frame.

non-adjustable tines that are easy to replace.

HYDRAULIC ADJUSTABLE FORKS

Change tine spacing on-the-fly from inside the cab with the Craig Hydraulic Adjustable Pallet Forks. This hanging tine design features two cylinders to ensure smooth adjustment.

CRAIG ROCK FORKS

Craia Rock Forks are designed for moving large rocks in quarry

applications, Craig Rock Forks feature hanging non-adjustable tines

applications. Built to withstand the severe duty of quarry

that are easy to replace.

WL-CGS **GRAVEL SCOOP** 

Perfect for working in hard to reach areas, the Craig Gravel Scoop allows the operator to place loose material with precision meaning less material lost. The Craig Gravel Scoop is ideal for loading aggregate into an excavator bucket or in greas where controlling material discharge is key.

WL-CLR LAND CLEARING RAKE

The Craig Land Clearing Rake transforms your loader into a versatile land clearing tool. Perfect for working with logging slash for biomass fuel collection and site preparation for re-planting.

WL-CLLF LOG AND LUMBER FORK

The Craig Log and Lumber Fork is a do-it-all job site tool for the mill operator who has a variety of requirements for their loader. Excellent for handling tree length or bolt length logs, the Craig Log and Lumber Fork also features 'L' shaped tines for superior strength and handling stickered lumber and finished product.

SAW LOG GRAPPLE

Designed and tested under severe working conditions in the heaviest logging mill applications. This grapple is a time-proven winner for the sorting and moving of tree length or bolt length logs. General purpose, unloading, and sorting style configurations available.

The Craig Pipe Grapple for wheel loaders is designed to work with all standard oil field pipe. Features a low profile design that is the ultimate in high visibility. Hydraulic hoses are hidden and protected within the frame for increased longevity.

The Craig Quik Key coupler system allows for maximum work site and seasonal versatility. Change attachments in just seconds. "Bull nose" allows for easy alianment, even on uneven terrain.

COMBO COUPLER (HOOK STYLE)

Offering superior visibility and minimal extension on the loader arms, the Craig Combo Coupler allows your machine to pick up existing OEM specific attachments.

## WL-CLR2-2W PALLET CRUSHER

Recycling pallets is made easy with the Craig Pallet Crusher. Based on the design of the Craig Land Clearing Rake, the Pallet Crusher allows you to easily pick up, crush, and recycle old pallets.

WL-QKSB CRANE BOOM

Bucket lift hooks can be danaerous, they're also inefficient. Reach further, more accurately and with better visibility by using the Craia Crane Boom. Available in 2-section or 3-section configurations. Hydraulic and manual extension available.

Designed for work in the oil fields, the Craig Mat Grapple for wheel loaders is the perfect tool for moving drilling mats around the job site.

# LOADER ATTACHMENTS

municipalities across North America. Available with

# WL-301 HYDRAULIC SNOW WING ASSEMBLY

Featuring our proven multi functioning joystick controls. The 21" of hydraulic extension provides additional plowing width capabilities while protecting your machine and snow gear when combined with the Craig hydraulic kit. Options available include Hydraulic trip swivels, quick pick rear post bracket for easy removal and installation of wing.

### WL-HTS HYDRAULIC TRIP SWIVEL

Protect your wing assembly with this cab resettable hydraulic trip swivel. Replacing the standard bell swivel on the front post, this unit uses hydraulic reliefs to allow the moldboard to trip when it strikes an obstacle.

## WL-QA QUIK PIK REAR POST BRACKET

Available as an optional add-on for the Craig 301 Wing Assembly, the Quik Pik Rear Post Bracket allows the complete push pole assembly, wing, and plow to be disconnected from the loader by a single person without tools in just minutes.

Protect your wing assembly with this mechanical trip. Replacing the standard bell swivel on the front post, this unit uses a rubber spring that compresses to allow the moldboard to trip when it strikes an obstacle.

#### WL-301PW PATROL WING

The Craig Patrol Wing uses many of the components from our standard Wing Assembly for wheel loaders. Operates using two machine OEM auxiliary valve sections or the Craig SPD valve and machines third auxiliary (spool). Features up to 21" of mechanical extension as well as mechanical float on both ends of the moldboard. Optional mechanical trip swivel available.

17

Patrol Wing shown using machine OEM auxiliary hydraulics and complete with the Craig standard 30 inch post and 21 inch extra reach feature (mechanical strut). Optional mechanical trip and fender replacement shown.

saving potential

# GRADER

This grader is fitted with a 300 Postless Wing Assembly, the curl of our moldboards still based on the formula perfected in the 1950s. This machine is also equipped with a Universal Snow Gate built extra heavy duty to tackle extreme snow and ice.

# **GRADER ATTACHMENTS**

**PLOW HARNESS** 

This Plow Harness will accept Craig models of snow plows and blades including one ways, vee plows, reversibles, and dozer blades. Down pressure options available.

UNIVERSAL PLOW HARNESS

The Craig Universal Plow Harness features all of the great rugged design features of our standard Plow Harness while allowing you the flexibility of picking up Craig, Champion, and Viking style plows. Designed to work with factory mid-mount scarifiers.

PARALLEL LIFT GROUP

The ultimate in work site and seasonal versatility, the Craig Parallel Lift Group allows you to change grader attachments in seconds. Female blanks available for converting existing attachments.

SERIES III WINDROW ELIMINATOR

The lightweight solution for reclaiming the road shoulder. Features an integrated swing frame and radial lift system. Shock absorbing lift chain and straight blade. Available in manual and hydraulic adiustina tires.

Break up compacted material to facilitate grading with the Craig Front Mount Scarifier. Bolts directly to the nose of the grader and includes a parallel lift linkage to ensure even ground penetration. Features a 'v' style scarifier head for efficient breaking up of material. Designed to accept OEM Ripper shanks/teeth not included

MG-850-CH CHAMPION STYLE DOZER BLADE

The Craig Champion Style Dozer Blade uses a time proven design that offers a rugged hook-up, two stabilizing arms, and a down pressure strut. Comes standard with end gates to stop material from flowing over the edges of the moldboard. Work with Champion, Volvo, and Craig Universal Plow Harness.

STRAIGHT FIXED DOZER BLADE

Available in 8', 9', and 10' blades, this fixed dozer blade works with our standard lift group plow harness. Available in a variety of hookups.

MG-851 MANUAL ANGLING DOZER BLADE

Available in 10', 11', and 12' blades, the Craig Manual Angling Dozer blade offers 30° of angle in both directions for maximum versatility. It is recommended to work with a parallel lift harness.

MG-HTS / MG-MTS HYDRAULIC/MECHANICAL TRIP SWIVEL

Protect your wing assembly with a Craig Trip Swivel. Hydraulic and Mechanical options available. Trip swivels allow your wing moldboard to trip when striking an obstacle. Hydraulic option can be reset from the cab. Mechanical option may require the wing to be lifted off the ground to be reset.

Specifically designed to work with OEM front mount scarifiers, this blade slips over the scarifier tool bar and is locked in place using the OFM scarifier teeth

UNIVERSAL SNOW GATE

Mounting to the factory circle moldboard, the Craig Universal Snow Gate allows the operator to momentarily interrupt the flow of snow to avoid filling driveways and intersections.

SERIES II WINDROW ELIMINATOR

A rugged solution for maintaining roads. The Series II Windrow Eliminator features a robust design with a parallel lift system. Eliminates the need for an extra pass, saving time and energy for your operation. Available in manual and hydraulic adjusting tires.

FRONT MOUNT SCARIFIER

## FRONT MOUNT SCARIFIER HEAD

The Craig Front Mount Scarifier Head features lift hooks to work with the Craig Parallel Lift Group. Features a 'v' style scarifier head for efficient breaking up of material. Designed to accept OEM Ripper shanks/teeth not included.

## **CUSTOM STEEL FENDERS**

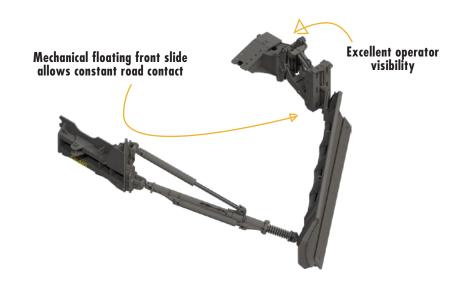

Front, rear, and complete sets available on some machines. These heavy duty steel fenders will stand up to the harshest conditions. Steel fenders are designed to work with tire chains.

The grader reteiver is perfect for lump free spreading and collecting lost gravel back to roadsides. The Discs comb through grass to bring gravel back to the road side so replacement is needed less often. Retriever can be purchased as a complete setup. If you have an existing Craig snow wing, the retriever moldboard can be fitted onto existing snow wing gear. See Craig for details.

# WING ASSEMBLIES

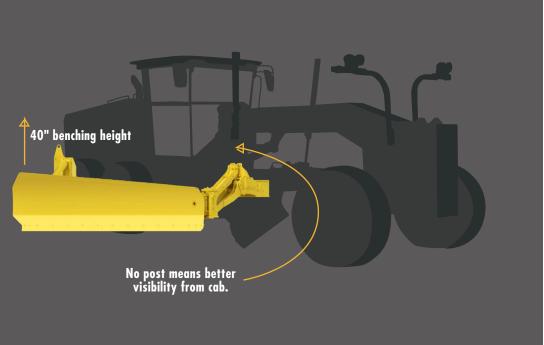

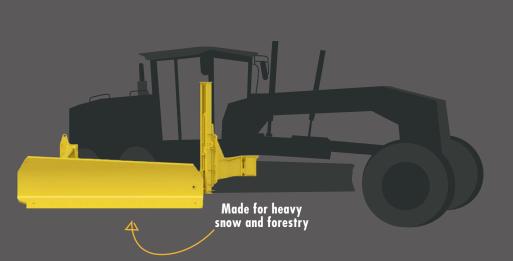

#### **MG-300SS POSTLESS SEVERE** SERVICE WING ASSEMBLY

The ultimate in grader snow removal gear, the Craig Postless Severe Service Wing Assembly offers the same great operator visibility and safety as our standard Postless Wing Assembly in a severe service package. Ideal for heavy snow fall areas and the forestry industry.

#### MG-300 POSTLESS WING ASSEMBLY

Designed for maximum operator visibility, this wing assembly uses a parallel design front lift arm to provide up to 40" of level benching height. Postless design allows for exit from wing side door when needed.

#### **MG-30155** SEVERE SERVICE WING ASSEMBLY

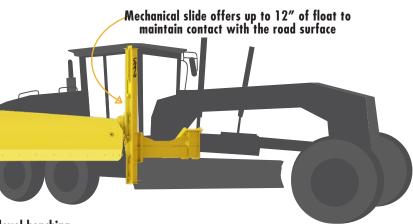

The Craig 301 Severe Service Hydraulic Wing Assembly comes with all the same great features as our standard 301 Hydraulic Wing Assembly in a severe service package. Ideal for heavy snow fall areas and the forestry industry.

#### MG-301 HYDRAULIC WING ASSEMBLY

The standard Craig wing design, the Craig 301 Hydraulic Wing Assembly for motor graders has been proven around the world since the 1980's. Available with a 12', 13' or 14' wing moldboard.

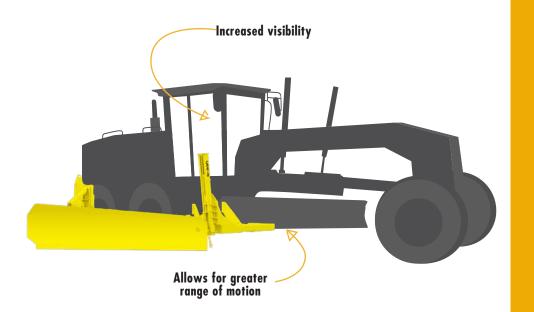

48" level benching heiaht

# WING ASSEMBLIES

#### MG-301US UNDERSLUNG WING ASSEMBLY

The Craig 301 Underslung Wing Assembly offers increased visibility and moldboard angle over the standard 301 Wing Assembly. The front post is mounted behind the articulation point, allowing the grader to maximize articulation while in carry or plow mode. Available on most machines.

#### MG-302 HIGH LIFT WING ASSEMBLY

Extend the capabilities of your grader with an all hydraulic high lift rear post wing assembly. Featuring 60" of level benching height, this assembly allows operators to double bench snowbanks for more efficient plowing in high snow fall areas.

# SNOW PLOW OPTIONS

**REV-EXT EXTENDABLE REVERSIBLE PLOW** 

The Craig Extendable Reversible Plow is ideal for contractors who plow multiple large parking lots and yards. The hydraulically adjustable width allows it to be an efficient snow removal tool with a wide cleared path that is safe for travel between jobs.

REV-V FOLDING VEE PLOW

A versatile multi-position plow, the Craig Folding Vee Plow is capable of acting as a vee plow, inverted vee plow, straight blade, or angled blade.

**FOLDING WING PLOW** 

The Craig Folding Wing Plow is designed to be the ultimate multifunction snow fighting tool. The end gates allow it to be used as a reversible plow, box plow, and back dragging plow. Available for backhoes and medium sized wheel loaders with a bucket capacity ranging from 2.00yd to 3.50yd.

**4900 SERIES REVERSIBLE PLOW** 

Craia 4900 Series Reversible Plows are efficient mid-weight plows ideal for mid-size machines working in standard snow conditions. Very similar in design to our proven 0600 series.

**REVERSIBLE PLOW** 

The result of over 70 years of design improvements, this reversible plow is the industry leader in snow equipment for wheel loaders. A full floating frame, with down pressure arms, follows the contour of the road both laterally and horizontally to ensure maximum contact

HEAVY DUTY REVERSIBLE PLOW

The arandfather to our 0600 Series Reversible Plow, the 6900 Series is the original rugged reversible plow for the heaviest of snow conditions, with decades of proven history.

WL-STRYKER CRAIG STRYKER PLOW

The Craia Stryker Plow is designed for small to medium wheel loaders up to a 3.5 vard bucket capacity. This standardized plowing solution comes equipped with our vertical down pressure float system and is available with a trip edge only. The vertical down pressure float system allows the plow to float and oscillate with the contours of the road as well as offers the ability to lockout the floating capability for scraping packed snow or ice.

WL-SP-EXT

**EXTENDABLE SNOW PUSHER** 

Ideal for contractors who plow multiple large parking lots and

yards, the Craig Extendable Snow Pusher gives you a large

cleared path that can be hydraulically adjusted for traveling

between iob sites.

Keeping airport ramps clear and safe around North America, the Craig Ramp Plow is custom engineered for ease of use and efficient snow handling. Available in extra wide widths, these plows can be ordered with a variety of cutting edges including rubber to protect the tarmac.

MG-7900 HYDRAULIC REVERSIBLE PLOW

The result of over 70 years of design experience, this rugged reversible is the industry leader in snow equipment for graders to this day. The full floating frame follows the contour of the road both laterally and horizontally to ensure maximum contact.

1072 SERIES **ONE WAY PLOW** 

The Craig 1072 Series One Way Plow comes equipped with a solid push frame and triangular trip mechanism. This plow is ideal for heavy public works use on loaders and smaller trucks.

1073 SERIES HEAVY DUTY ONE WAY PLOW

The result of more than 70 years of working hand-in-hand with Department of Transportation representatives across North America, the Craig 1073 Series One Way Plow is the absolute best in snow removal. For graders, large loaders, and tandem trucks.

### HIGH SPEED ONE WAY PLOW

Featuring a very aggressive conical moldboard, this plow has been designed specifically for highway use. The large difference between intake and discharae heights results in superior snow curl and discharge at high speeds (for graders).

## 630 SERIES VEE PLOW

Used exclusively for opening some of the worst roads in the north. the Craia 630 Series Vee Plow is one of the most rugged vee plows on the market today. This plow has been, and continues to be, a mainstay of advernment and private industry.

WL-CSP SNOW PUSHER

Clear large payed surfaces faster with one of our rugged Snow Pushers. Constructed specifically for parking lot usage, our design incorporates a precision back frame for maximum strength and ease of hook up.

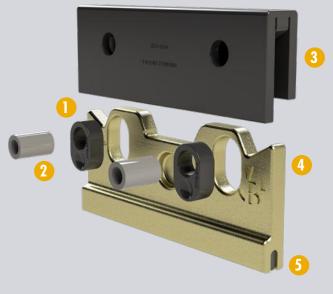

Everything you liked about our one way plow with the added bonus of being able to plow at higher speeds. The wheels decrease wear and provide stability to the plow.

SAVES SALT | LASTS LONGER | QUIETER CAB | EASY REPLACEMENT

**UPGRADE AVAILABLE FOR ALL CRAIG PLOWS** 

# ALT SAVER

- 1. RUBBER BUSHING
- 2. STEEL SPACER
- 3. EPDM SYNTHETIC RUBBER PAD
- 4. **ONE-PIECE FORGED WEAR EDGE**
- 5. TUNGSTEN CARBIDE INSERT
  - (1-1/8" TALL)

### **FOLLOWS UNEVEN SURFACES**

Designed as a cleaner, greener plow edge solution, the Salt Saver is designed to follow uneven paved surfaces for improved snow removal over a traditional style edge.

### **ABSORBS VIBRATION**

The rubber pad<sup>1</sup> holding the edge absorbs the vibration and noise making the cab a quieter place for the operator to work in. This also helps to reduce the overall wear on the equipment.

## **EASY INSTALL AND REPLACE**

Light weight edge sections are easy to install and replace which saves time and there is no metal on metal contact meaning there is less wear on the attachment as a whole.

### **HIGH WEAR LIFE**

Custom one-piece forged steel wear edge<sup>4</sup> supports a custom tungsten carbide insert<sup>5</sup> that is brazed into the bottom surface. These inserts are designed to significantly reduce their tendency to crack and disintegrate meaning the edge lasts longer.

# TRUCK | ROLLER | BACKHOE | DOZER

SEE OUR WEBSITE FOR FULL OFFERINGS OF THESE MACHINES

#### LINER **ARTICULATED TRUCK BED LINER**

Craig offers a wide variety of services for your heavy construction equipment including bed liners for articulated dump trucks. Bed liner kits are available from Craig for articulated dump trucks ranging from 25 - 60 ton capacity as well as rigid frame dump trucks ranging from 45 - 1000100 ton capacity. The Craig Manufacturing bed liner kits are custom engineered in-house and cut from brinell 400 steel to increase the durability and lifespan of your truck box.

# PAD FOOT ROLLER SHELL KIT

Improve the versatility of your smooth drum compactor with a Craig 2 piece or 3 piece Pad Foot Roller Shell Kit.

- 2 and 3 piece designs availableSecure installation
- Available in various widths and diameters
- Optional scraper bars available

## WOOD CHIP U-BLADE

In use at bio-thermal plants across North America, these custom Craig Wood Chip U-Blade's are hands down the most efficient way of handling the vast quantities of light material used in this type of application.

- Custom designed for your specific
- application Visibility slots for accuracy and safety

#### BH-GP **GENERAL PURPOSE BUCKET**

Each Craig General Purpose Bucket has been specifically designed to work with your machine's OEM geometry to its full potential. These buckets will work day-in and day-out on the toughest job sites.

- Available with hanging tine kit
- Available in Craig Quik Key, OEM coupler and Pin-on configurations
  Drilled to accept dealer specified edge, installed
  Pin-on bucket lugs are built to OEM specifications

- Can be customized to your specific needs width, capacity materials and features
  Critical wear areas utilize Brinell 400 wear plate
  Designed to load effectively and easily

# PARTS & CUSTOM MANUFACTURING

#### STOCKED PARTS, FAST DELIVERY

When things go wrong and you need parts fast, you can count on Craig Manufacturing to have them in-stock. Craig has a full stock of parts and wear components at all four branch locations across Canada and the US to keep our customer's attachments working for them.

If you find yourself in need of parts, call the Craig Customer Support Center today. With same day shipping on many parts and wear components, we can get your attachments back up and running in no time!

#### MORE THAN JUST ATTACHMENTS

Craig Manufacturing offers a wide variety of custom manufacturing and custom engineering services that expand far outside just custom heavy equipment attachments. Custom manufactured products and services include:

- Complete machine guarding packages
- Third member booms for excavators
- Bed liners for off highway rock trucks
- Excavator stick modifications

Call the Craig Customer Support Center today to learn more about custom manufacturing services offered by Craig Manufacturing.

#### **CWB CERTIFIED**

Craig Manufacturing is now certified by the Canadian Welding Bureau (CWB) at all three of our locations across Canada. This means welding related services provided by Craig, both through our shops and our mobile services, meet the welding standards set by the CWB.

## **QUALITY SERVICE, SINCE 1946**

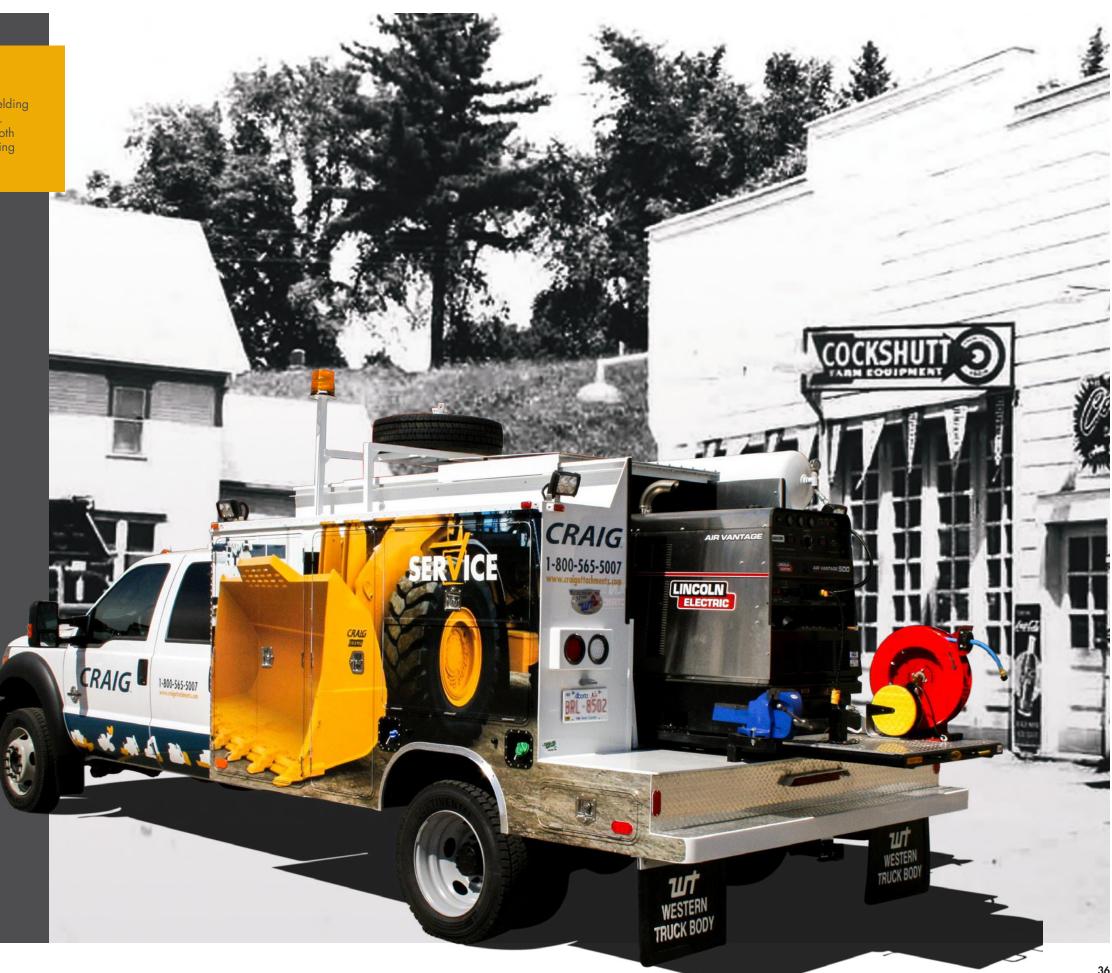

More than just heavy equipment attachments, Craig Manufacturing offers a wide range of services for your attachments and equipment. With services ranging from attachment repair to attachment installation and more, Craig Manufacturing is your one-stop-shop for all your heavy equipment attachment needs.

With service trucks at our Ontario and Alberta locations, Craig Manufacturing is fully equipped for your on-site service needs. Call us today to learn more about the great services we offer to keep your attachments and equipment working to their maximum capacity.

### **KEY FEATURES**

- On-site service for your attachments no need to haul attachments to and from a shop for repair or maintenance
- Expert service from Craig professionals
- No guess work our experienced staff know our products inside and out, let us take the guess work out of your next attachment repair or install

# **SERVICE**

# INDUSTRY LEADING WARRANTY COVERAGE

#### WARRANT 3 YEARS-6000 HOURS CRAIG.

# THE CRAIG ADVANTAGE

STAFFED WITH INDUSTRY PROFESSIONALS, THE CRAIG CUSTOMER SUPPORT CENTER IS READY TO HELP YOU WITH YOUR HEAVY EQUIPMENT ATTACHMENT NEEDS.

Our responsive team of professionals make doing business with Craig easy! Whether you're purchasing new, looking to bring new life to an existing attachment, or need assistance with attachment operation, the Craig Customer Support Center is here to help. Call the Craig Customer Support Center today for all your heavy equipment attachment needs.
